Who we are

Passionate Technologist

Building **Digital Solutions**

What we do

Digital Experiences

Mobile Applications
Web Applications and Websites
E-commerce / Payments / Integrations
Location Based Applications

What we do

Artificial Intelligence

Big Data for Decision Making, IoT, ML

AI math models

Customization / Entity behavior forecast

Research and Development

Our Locations

Headquarters Costa Rica CST

USA Offices Chicago, IL
Nashville, TX
Santa Clara, CA

EU Offices Munich, Germany

200+
Projects

11
Years

+50
Clients

Members

- Chicago 1871 member
- Camtic Member

Certifications

- Scrum Certified
- UX Certified
- Data Science Certified
- IA Certified

Network

ITCR University:

Computer, Design, Electronics, Data Science, Mechatronics, Biotechnology, Nano and Industrial Engineering Schools

Offices / Representatives

Chicago, IL. 1871, IHCC, Chamber of Commerce, Business Residence
Santa Clara, CA. Business Rep.
Munich, Germany. Business Rep.
Nashville, TN Business Rep

Supported Companies

Revive Software Architecture Inc, Denver
The Trade Desk Inc, Denver.
Carely, California
Gun.io, Nashville

Other Networks

Camtic, Procomer, Innovation & Entrepreneur CR, Technology Council, Cenibiot, Nanotec, Singularities

4 PhD Machine learning
2 Manufacure Experts
Pattern Recognition and Machine Learning Group

Key People

Carlos Wong

CEO Co-Founder

Computer Science Engineer
Master's in Business Administration

Business strategy, Director,
Evangelist and Partnerships, Best Practices and
Vision inspiration, Financial Advisor,
Management and Delivery process improving,
Foreign assets

Rodrigo Nuñez

Solution Architect / Professor Co-Founder

Computer Science Engineer and Master
Innovation Manager

Design of software architectures, implementations.
Transforming project needs into action, scoping,
estimations, idea generation and discovery, technology
strategies, project feasibility.

Ricado Quesada

CTO Co-Owner

Computer Science / Master in Business

Technology architect, Product Manager, Development performance, technology decision maker, tech leads supervisor, point of contact, technology promoter, project performance supervisor.

Julio Barboza

Project Account Manager Co-Owner

Software Engineer / Scrum Certified

Algorithms and software advisor, product manager and supervisor, researcher's point of contact, monitor and improvement of the scrum methodology, product owner, technology specialists in a wide variety of technologies

Melina Obando

Creative Director

Digital Animation Engineering
User Experience Designer

Creativity, innovation, concept design, UX,
service design, branding, emotional and
cognitive digital value, problem solver, strategic
message, arts, design, mockups, prototypes,
videos and animations

Ariana Murillo

Creative

Industrial Design Engineer
Product Designer

Crafting of digital experiences into media,
visual, graphical design, concept design,
application and web design

Andy Spyrison

Chief Marketing Technologist

Marketing Business Administration
Entrepreneur

Business development and technology strategy. Point of connection in Chicago, U.S. Value, service and strategy designer. Executive advisor

Alexis Gamboa

Business Evangelist

Computer Science Engineer
Master in Computer Vision

Technology advisor, tech lead and business representative in Germany. Develop strategic partnerships. Strong in math's and computer vision

Esteban Brenes

Mobile Tech Lead

Computer Science Engineer

Active tech lead, strategic and best practices programming focus on mobile development.

Daniel Solano

QA Architect

Software Engineer

Quality assurance director and architect, excels automation and quality control processes in general, integrated with the development cycle.

Allan Gutiérrez

Senior Software Engineer
Development Process Manager

Computer science engineer and master

Supervisor and lead of the development process correctness, results oriented manager, backend and web expert. Active development tech lead and business designer

Josué Santamaría

Senior Tech Lead

Computer Science Engineer
Scrum Certified

Tech lead, scrum master, technical advisor, expert in mobile, web and backend development, strong in algorithms optimization, company mentor.

Juan Esquivel

Machine Learning & Big Data Consultant

Computer Science Engineer
PhD. Computer Science & University Professor

Math's modeling, researcher, developer and architect of machine learning solutions. Implement the mathematical models and architecture for Ai solutions to be consume by the software engineers who polish and finish the solution to the final customers.

Juan Luis Crespo

Machine Learning & IoT Consultant

Industrial Engineering and Physics

Math's modeling, researcher, machine learning solution designer for natural sciences. Expert in mechatronics and member of PARMA group. University Professor. Researcher and director of Liana
