TESTIMONIALS

“As an outsourcer company, our technology department is very dynamic, we need to deliver solutions with short time frames and comply with high quality standards. FUSIONET has become a strategic partner for Sykes, as they are always there when we need them, either by giving us support services in Cisco Technologies or providing us with Cisco equipment in a fast and easy way. More than just a provider, FUSIONET has become a partner that understands our business, adapts to our requirements, and the need for fast and effortless solutions”.

Gustavo Jenkins
IT Manager
Sykes Enterprises

“State Employees’ Credit Union has partnered with Fusionet for multiple projects with very good results. Fusionet resources are accommodating to flexible work hours, always courteous, and have fit seamlessly into our culture. Fusionet helped fill technical gaps in areas we were understaffed. I highly recommend using Fusionet for staff augmentation or project work”.

Tracy Deans
Senior Vice-president Infrastructure
State Employees Credit Union
