

Hello! We are a Costa Rican 🇸🇨 Software development company with focus on User Experience (UX)

Born in 2013 | San José, Costa Rica | 22 Headcount | +50 projects

An Agile focused company, with **10 years** of experience, powered by passionate humans that conceptualize, design and build digital products with a user-centric approach.

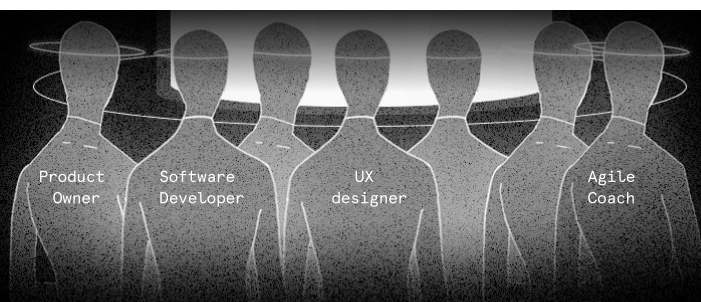

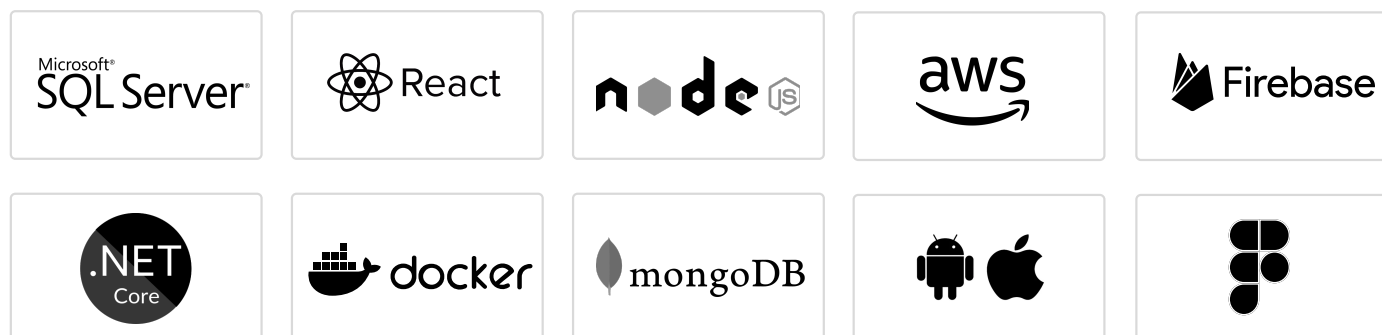

We work for growing companies that need to build and launch a new digital product on **Fintech, Health or field services industries.**

You need to create a digital product?

We are the smartest possible way to acquire a high-performing agile team. ✨

Our Skill set 🛠️

We are an elite team, with knowledge in different technologies

Our Clients ✨

We create customized projects according to each customer's need, we focus our efforts on two types of clients:

Entrepreneurs 📱

Build and launch new products

- MVP Development.
- SaaS Development.
- Design Sprint.
- Web / App Development.

Growing companies 📈

Ready-to-go team to start building

- API Development.
- React.js
- React Native
- Angular
- .NET Core

The results speak for themselves, these are some of the customers who have trusted us

“Start small, **experiment** and grow”
